

DEPARTMENT OF

CHEMISTRY AND BIOCHEMISTRY

Tasks to help you get off to a great start:

1. Enroll in the appropriate mathematics course.
 - If you are ready for calculus, enroll in FDMAT 112
 - If you are ready for precalculus, enroll in MATH 109
 - If you are unsure of your mathematics readiness, the Department of Mathematics offers a mathematics placement test. Your score on the test will let you know which math course you should choose to enroll in. For more information, please visit:
<https://www.byui.edu/mathematics/placement-system-aleks>
2. Enroll in CHEM 105 and CHEM 105L. The recommended sequence of courses is on the next page. Do not plan on taking all your General Education classes all at once or in large groups! Spread them out! If you have questions regarding classes, contact your Academic Advisor in the College of Physical Sciences and Engineering: (208) 496-9880 or cpseadvising@byui.edu
3. Come to the Academic Connections orientation meeting at Get Connected. For a schedule of events, see: <https://www.byui.edu/student-support/get-connected>. In this meeting we will have an opportunity to meet and get to know each other and schedule an interview. If you are unable to attend the Get Connected orientation, please let me know by email.

Please do not hesitate to contact myself or your faculty mentor if you have any questions.

Scott Johnson

DEPARTMENT CHAIR
(208) 496-7752

JOHNSONSC@BYUI.EDU

My name is Scott Johnson and I currently serve as the Chemistry and Biochemistry Department Chair. My colleagues and I look forward to getting to know you as you begin your studies in biochemistry, chemistry, or chemistry education. The faculty and staff in the Department of Chemistry and Biochemistry are committed to helping you succeed.
